## WITH BIZHUB, YOU'LL BE MORE PRODUCTIVE.

Still working with an overloaded desktop printer – or an analog copier that slows you down? You're ready for the power of bizhub™. The bizhub 160 is a central document resource that combines fast, high-resolution output with built-in GDI printing and workhorse reliability. It's designed to keep pace with document demands in the digital era – increasing productivity, reducing costs and moving information faster. With TWAIN colour scanning, you can digitize documents to bring them into your system more efficiently. And PageScope™ Workware™ helps you manage multiple documents with simple PDF workflow and on-screen thumbnail images. For growing business and rising workload, bizhub gets the job done better.

The essentials of imaging

## KONICA MINOLTA bizhub 160

**Advanced bizhub design.** You may be a small office, but there's nothing small about your workload – and for rising traffic and growing demand for fast, high-quality documents, the bizhub 160 is your perfect productivity solution.

**Up to 16 ppm output.** With print/copy speeds up to 16 ppm at 300 x 300 dpi or 12 ppm at 600 x 600 dpi, the bizhub 160 can make all your documents look more professional – with exclusive Micro-Toning High-Grade (MT-HG) imaging system for sharp fine detail and more legible text.

**Built-in scanning.** You can also bring documents into your system faster with standard TWAIN scanning in both colour and B&W – so right out of the box, the bizhub 160 can make you more productive.

**Save paper with 2-in-1 and 4-in-1 storyboarding.** Copying multiple originals on single sheets gives you a fast, cost-effective way to reproduce long reports and presentations.

**Standard auto document feeder.** The bizhub 160 can automatically feed up to 50 sheets – speeding the process of loading, scanning and copying originals.

**Compact design, easy access to paper and toner.** The compact dimensions of the bizhub 160 take up less counter or floor space – and its design lets you load paper, clear misfeeds and replace toner from the front.

**Power to manage documents more easily.** Optional PageScope Workware™ software gives you a simplified PDF workflow for viewing, searching, editing and sharing information – with on-screen thumbnail images, built-in OCR, custom document handling, hot links, and printing or Emailing with drag-and-drop speed.

### 760-SHEET MAXIMUM PAPER CAPACITY.

IN ADDITION TO A STANDARD 250-SHEET PAPER TRAY (UP TO 8-1/2" X 14") AND 10-SHEET BYPASS (ONE #10 ENVELOPE OR 5 OHP TRANSPARENCIES), YOU CAN ADD AN OPTIONAL 500-SHEET PAPER CASSETTE TO HANDLE LONG PRINT/COPY RUNS.

**BUILT-IN PRINTING.** THE BIZHUB 160 PROVIDES HIGH-SPEED COPYING, BUILT-IN GDI (GRAPHICAL DESIGN INTERFACE) PRINTING AND SIMPLE PC CONNECTIVITY THROUGH USB 1.1 OR IEEE 1284 INTERFACE – SO YOU DON'T NEED AN OPTIONAL CONTROLLER FOR PROFESSIONAL DOCUMENT PRINTING WITH DESKTOP POINT-AND-CLICK CONTROL.

**A CONTROL PANEL ANYONE CAN OPERATE.** EVEN FIRST-TIME USERS OR TEMPORARY EMPLOYEES WILL UNDERSTAND THE LARGE FUNCTION KEYS AND SIMPLE, INTUITIVE MENUS OF THE BIZHUB 160.
