

KONICA MINOLTA

Giving Shape to Ideas

A smaller ecological footprint is to everyone's advantage—and you can count on Konica Minolta to lead the way in making consumable recycling simple and cost-free.

Whether you have a single Konica Minolta desktop printer, a whole fleet of bizhub® MFPs, or professional bizhub PRESS and bizhub PRO production printers, it's never been easier to recycle your consumables—toner cartridges, imaging units, fusers, developer units and drums. The recycling process is simple. For full details, just visit our Clean Planet website:

RECYCLING PROGRAM

A BETTER WAY TO HANDLE YOUR CONSUMABLES.

HOW OUR PROGRAM PROTECTS THE ENVIRONMENT.

No consumables in landfills. Konica Minolta has partnered with Clover Technologies Group, a leading global recycler of imaging consumables. When Konica Minolta consumables arrive at our locations, they are processed in an environmentally safe and responsible manner—no recyclable items are permitted to go into landfills.

HOW RECYCLING CAN SAVE YOU TIME AND MONEY.

No cost to our customers. Unlike some recycling plans, Konica Minolta's Clean Planet Recycling Program doesn't require you to pay shipping or recycling costs.

All consumables can be recycled. We now accept toner cartridges, imaging units, waste toner bottles, developer units and drums—all the consumables from every Konica Minolta model and other manufacturers. No matter what volume of consumables you use, there's a recycling program to fit your needs.

A total commitment to the environment. For years, Konica Minolta has led the industry in policies and technologies designed to protect our planet—saving energy, minimizing pollution and reducing environmental impact through the entire lifecycle of our products.

WHICH RECYCLING PROGRAM IS FOR ME?

On our website, you'll find complete instructions on how to return your consumables and print prepaid labels at your workplace to streamline your process.

For small to mid-sized customers. This program is designed for customers who use 3-8 consumables per month. We strongly recommend that customers gather multiple consumables to return. Consumable items can be recycled by printing a prepaid UPS label, applying it to your own box and giving the box to your UPS driver or dropping your box off at a UPS facility.

For high-volume customers. Konica Minolta can arrange for the delivery and pickup of recycling pallets that hold a larger quantity of consumable items (not shipping materials). Please check our Clean Planet website for details.

For our Optimized Print Service customers. OPS is now part of Konica Minolta's Clean Planet program, giving you one consolidated method for easily returning and recycling all your consumables.

Please recycle efficiently. Konica Minolta toner bottles are made of HDPE2, a material designed for recycling in local facilities. Please check the rules of your municipality for specific information.

All manufacturer consumables will be accepted. If you have printer or copiers from other manufacturers, we encourage you to take advantage of this recycling program.
