

Giving Shape to Ideas

Dispatcher® Phoenix Mobile: the Anywhere, Anytime
Document Workflow Solution for Your Mobile Workforce.

mobility

 **Dispatcher**
Phoenix

Workflow on the Go.

To stay a step ahead of the competition, today's leading companies must develop strategies to support an increasingly mobile workforce – leveraging technologies to maximize productivity and providing “anytime/anywhere” access to document workflows.

Konica Minolta's Dispatcher Phoenix Mobile app gets you there: allowing access to automated workflows on iOS and Android smartphones and tablets, so employees in the field and on-the-go professionals can use the same familiar workflow on whichever device is most convenient.

Submit Any File to Dispatcher Phoenix.

Use your iOS or Android mobile device to submit photos, email attachments, and files from Google Drive and other cloud resources straight to your Dispatcher Phoenix workflow. With the Dispatcher Phoenix Mobile app, field-based or on-the-go workers will have mobile access to all the advantages of Dispatcher Phoenix's powerful process automation solution: streamlining repetitive manual tasks, simplifying scanning processes, storing and sharing mission-critical information – with BYOD (“Bring Your Own Device”) convenience from any networked location.

Mobile Print Release.

In conjunction with the secure print release capabilities of Dispatcher Phoenix's Release2Me solution, you can use your mobile device to release print jobs whenever you are ready: viewing a list of jobs in your print queue, selecting from your list of print devices or easily adding a new device, then printing out your document when you can be there to pick it up from the output tray – so sensitive information does not wait at the printer where anyone can see it.

Greater Document Control.

With Dispatcher Phoenix Mobile on your team, workers and administrators will have greater control over their documents: adding indexing information, geo-tagging files, even adding metadata – essential productivity advantages in the new era of mobile professionals. Now you can use your mobile device to process files automatically – converting them to PDF or Microsoft Office formats, adding Bates stamps, redacting sensitive data and more – all before uploading them to a document management system, sharing them with colleagues, sending them to a printer, etc.

Anywhere You Go:

Access Dispatcher Phoenix on your mobile device from any place that has network access to the server.

The Ultimate Technology is Simplicity.

Along with all its benefits, Dispatcher Phoenix Mobile brings you another essential advantage: it is easy to use. An application dashboard can be customized to change the default view, show or hide components, and work the way you do. You can view available and favorite workflows, see details of your print jobs in queue for secure release, and easily navigate using slide-out sidebar design.

1

Access the Dispatcher Phoenix Mobile app on your smartphone screen and view all available workflows.

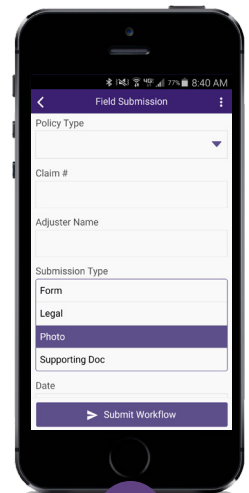

2

Tap on the workflow that you are interested in.

3

Choose one or more files to be processed, stored, printed, or shared.

4

Enter index form information and submit your files into the automated workflow – no need to interrupt your work or travel.

The Dispatcher Phoenix Family of Automated Document Workflow Solutions.

Dispatcher Phoenix Foundations

Perfect for small to mid-size business needs, with powerful features for scanning, routing and processing.

Dispatcher Phoenix Professional

Adds more document processing power and sophisticated tools for rules-based distribution throughout large organizations.

Dispatcher Phoenix Vertical Editions

Other versions of Dispatcher Phoenix provide targeted benefits for specific industries, such as Legal, Education, Healthcare, Finance and Government.

Powerful and Economical with Easy-to-Use Features

All versions of Dispatcher Phoenix include a graphical Workflow Builder tool, a Workflow Scheduler, LiveFlo technology, MFP integration with a visually enhanced display, document indexing and Windows Explorer-like folder browsing at the MFP, and robust authentication options.

Add-In Options

With Dispatcher Phoenix's modular architecture, you can increase the power of your workflow at any time by purchasing add-in modules such as forms processing with pattern matching technology, a convenient and secure Release2Me print release system, advanced job routing processes, and much more.

Connectors

A variety of connectors to popular content management systems and cloud storage service solutions are available, including Workshare®, OnBase® by Hyland, Worldox® by World Software, Microsoft SharePoint® and OneDrive®, Box®, Dropbox®, WebDAV, FilesAnywhere®, Konica Minolta's FileAssist, Google Drive, etc.

Visit kmb.konicaminolta.us/dispatcherphoenix for more information on the complete family of Dispatcher Phoenix offerings.
