Giving Shape to Ideas

## EFFECTIVE COST CONTROL AND WORKFLOW ENHANCEMENT SOLUTION

Organizations of all types need to keep costs under control while accomplishing regulatory compliance for document security. Managing your print operation helps you meet that goal — and lower costs as well. Dispatcher Paragon+ from Konica Minolta provides an invaluable and comprehensive look at how your MFP is being used. This critical information helps you optimize your operations, improving workflows and your bottom line.

Core functionality is MFP-embedded to enable tracking, limit user access, and secure pull printing — all based on individual user credentials. You can scan directly from the MFP control panel to your email or network folder, and even scan to the cloud using direct connectors to today's leading cloud storage applications. Cloud Fax lets you leverage a hybrid work environment and enables you to send and receive faxes from anywhere.

### TRACK AND CHARGE BACK THROUGH COMPREHENSIVE REPORTING

Dispatcher Paragon+ provides central reporting and accounting of all your print, copy, fax, and scan operations. Reports enable you to easily see information on all activity — including costs by user and/or department. You can use this to make users accountable for usage, eliminate waste and encourage responsible behaviour. This powerful solution is suitable for customers of any size with a cross-platform and vendor-neutral approach to technology and device support. Your organization can take advantage of an extensive range of tools that improve print flexibility; copy and advanced scan workflows; increase employee productivity; and ultimately reduce costs.

# BOOST PRODUCTIVITY AND SIMPLIFY WORKLOAD WITH SCAN AND OCR WORKFLOWS

Traditional scan workflows are time-consuming and involve repetitive work, as employees navigate a variety of menus and parameters to complete their scanning tasks. But with the intuitive interface of Dispatcher Paragon+ paper files can be quickly scanned. Digitizing paper documents and automating document delivery to user-defined or pre-configured destinations is now streamlined — letting you stay on top of document upkeep and focus on higher-value work. You'll be able to work smarter with the option to rename files, and extract key information from documents via optical character recognition (OCR). The file is then delivered securely to network folders, email addresses, and the cloud. You can leverage: Box<sup>®</sup>; Dropbox<sup>®</sup>; GoogleDrive<sup>™</sup>; Microsoft<sup>®</sup> OneDrive<sup>®</sup>; and Microsoft<sup>®</sup> SharePoint<sup>®</sup>, and many more. With direct connectors to today's leading cloud storage applications, you'll have the convenience and flexibility to drive productivity, improve accuracy, and create consistency within your organization.

## FEATURES

### STREAMLINE PROCESSES AND IMPACT PROFITABILITY

#### DETAILED OUTPUT AND COST REPORTING

- Web reports
- Management reports
- Export report results
- Automated reporting

#### CENTRAL USER AND ROLE MANAGEMENT

- Permission templates
- Secure authentication
- Secure pull print and print roaming
- Scan-to-Me, Scan-to-Home, Scan to Exchange and cloud storage applications
- Rules-based printing
- Mobile print

#### CREDIT AND BILLING

- Print accounting and monitoring
- Flexible cost allocation
- Individual price calculation
- Tracking of third-party devices

#### BUDGET AND QUOTA MANAGEMENT

- Easy budget assignment
- Periodic budget reset
- Payment system

#### CLOUD FAX EXTENSION

- Eliminates MFP fax kits and analog/VoIP lines
- Incoming faxes received through one of multiple ways
- Outgoing faxes sent from the MFP or web portal

#### INTELLIGENT SCANNING TO THE CLOUD

- Flexible and advanced document capture
- Improved output via OCR
- Simplified onboarding
- Secure document processing and delivery
- Single Sign-on (SSO) to today's leading cloud storage applications

#### SECURE PRINT RELEASE

- Tracking of print jobs for regulatory and compliance purposes
- Secure pull printing from any compatible printer connected to Dispatcher Paragon+
- Rules-based printing
- Centralized reporting

# OUR COMMITMENT TO SECURITY AND PRIVACY

It is our mission to help your business communicate effectively, digitally and in print. To do this, we are committed to keep your business assets and communications highly available to your customers, and highly secure from theft or harm through technical innovation and human integrity.

Take the first step of your digital transformation journey.
