# MOBOTIX MOVE

RETHINK YOUR VIDEO SECURITY OPTIONS

Giving Shape to Ideas

The MOBOTIX MOVE line of cameras is the compact and cost-effective option for all organizations seeking a centrally managed network for local video surveillance. You can add them onto an existing network or develop a new one! These weatherproof, high-quality IP cameras are equipped with the latest standard functions of centralized video systems, such as integrated infrared lighting, automatic day/night switching with a mechanical IR blocking filter (Wide Dynamic Range), varifocal lenses for how wide you want your view to be and High Speed PTZ (Pan, Tilt, Zoom – SpeedDome only). And, there is no compromise on performance with Intel high-performance processors.

## VIDEO ANALYTICS

In addition to live videos and playback videos at resolutions of up to full high definition, including sound, all other intelligent video analysis (VA) is available directly via the camera firmware without additional licensing costs on the new MOVE models.

Up to two video analysis tools can be activated simultaneously per camera, but we always advise that you double check the technical specifications for the details on the applications:

### VIDEO MOTION DETECTION

- **Object Counting** – counts number of objects entering a user-defined zone
- **Loitering Detection/Abandoned Object** – identifies people, objects or vehicles that stay in a defined zone for longer than user-defines – including if they do not leave.
- **Stopped Vehicle** – detects vehicles stopped near a specified area (like a no parking zone) and triggers an alarm
- **Object Removal** – triggers an alarm when object is removed from a user-defined zone (like a painting from a wall)
- **Wrong Direction** – identifies people or vehicles that move differently from the user-defined direction

### PERIODIC RECORDING

### NOISE ALERT

- **Intrusion** – in concert with motion detection, detects unusual noise and triggers an alarm (like a window breaking, door breach)

### TAMPER ALERT

- **Camera Sabotage** – covering lens causes alarm

**MOBOTIX = NO MOVING PARTS**  
**MOBOTIX MOVE = WITH MOVING PARTS**

If you are already familiar with our decentralized MOBOTIX line of IOT devices (no moving parts), then you know our MOBOTIX MOVE cameras (with moving parts) are German-made, high-quality, energy efficient systems.

## END-TO-END CENTRALIZED NETWORK

Since MOBOTIX MOVE cameras are centralized video systems in ONVIF S/G format, they will require centralized data storage (NAS) and a video management system (VMS) that supports the ONVIF standard. With average use, you should have 30 days of Network Video Recording (NVR).

Your cameras are quick and easy to install with no time-consuming pre-configuring or integrating. No technical expertise required.

MOBOTIX MOVE Fixed Dome Cameras

MOBOTIX MOVE Bullet Cameras

MOBOTIX MOVE SpeedDome SD-330

We have three types of MOBOTIX MOVE cameras in the new product line: Fixed Dome, Bullet and SpeedDome. We recommend that you set up your MOBOTIX MOVE camera network separate from your company network to keep the video system safe from cyberattacks.

Contact us to learn more about this new **MOBOTIX** video security option especially if you have **ONVIF** requirements to follow. Our Video Security Solutions Consultants can tell you more about this **MOBOTIX MOVE** product line or the decentralized **MOBOTIX IOT** devices.

Ask us about our **Government Cooperative Contracts** that you may be able to utilize for **K-12 School Districts, Municipalities, and Government Agency purchases**.

## PARTNERSHIP

Konica Minolta can help give shape to your ideas and partner with you to achieve your corporate objectives. Contact us to realize opportunities in:

### INFORMATION MANAGEMENT

- Cloud Information Management
- Content Management
- Automated Workflow Solutions
- Business Process Automation
- Security and Compliance
- Mobility

### IT SERVICES

- Application Services
- IT Security Assessments
- Hybrid and Private Cloud
- Managed IT Services
- Business Continuity
- 24/7 Help Desk
- IT Resources and Consulting
- Technology Implementation and Deployment

### TECHNOLOGY

- Office Multifunction Business Solutions
- Commercial and Production Printers
- Industrial Printers
- Wide Format Printers
- Laptops, Desktops and Computer Hardware
- Security Surveillance Systems
- Servers and Networking Equipment
- Managed Print Services (MPS)
